

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. STATE OF WISCONSIN,

OFFICE OF THE SECRETARY OF STATE,

MADISON, July, 1867.

By the provisions of Chapter 57 of the General Laws of 1867, which may be found on the following pages, it was made the duty of the Secretary of State to procure from the War Department a list of deserters from the military and naval service and from the draft. The accompanying list has accordingly been procured, and corrected as far as possible from the records in the office of the Adjutant General of this State. The names of all reported as deserters from the several regiments of this State have been compared with the muster-out rolls, and many originally reported as deserters have been omitted from this list.

The first of these lists contains the names of those who were reported at the War Department as deserters, and also so appear on the muster-out rolls of their respective companies. The second list contains the names of those who, when drafted, failed to report. All such are declared deserters by both National and State laws. That many are erroneously reported, is doubtless true. Many so reported were absent in Hospitals or on detached service, but their whereabouts being unknown to their company commanders, they were dropped, under orders, as deserters. Many who were drafted, were already in the army, but as they did not report to the Provost Marshal, they were marked as deserters. But probably a large majority of those reported were either actual deserters or absent without leave and were justly so reported.

In order that no injustice may be done, attention is called to the instructions accompanying the Election Laws, of which each Inspector will have a copy. And it is earnestly suggested to any and all who find their names on these lists erroneously, that they furnish to this office, at once, evidence of the facts in the case, so that the proper corrections may be made.

Copies of these lists must be posted up at the polls on election day, and under the law, are *prima facie* evidence of desertion. Boards of Registry have no right to register the name of any person found on these lists, without satisfactory evidence that the charge of desertion was false. Neither can the vote of any such person be received without the production of similar evidence. Trusting that all officers will unite in sustaining and enforcing the law, and that injustice may be done no one individual, these lists are submitted and certified.

THOS. S. ALLEN,

Secretary of State.

CHAPTER 67—GENERAL.

[Published April 2, 1867.]

AN ACT to authorize the secretary of state to procure and furnish to clerks of county boards of supervisors authenticated lists of deserters from the military and naval service of the United States, and to provide for their distribution.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows :

SECTION 1. The secretary of state is hereby authorized and required forthwith to procure from the secretary of war of the United States, an authenticated list of all persons who, being residents of the state of Wisconsin, at any time deserted from the military or naval service of the United States, or from any draft into such service duly ordered, and who are now enrolled in the office of said secretary of war as such deserters ; which said list shall be alphabetically arranged, according to the respective surnames of such deserters, and shall state as near as may be the time of each such desertion, and the place of residence of each such deserter at the time he deserted from said service, and which said list shall be kept and preserved in the office of the secretary of state, and shall be open to public inspection.

SECTION 2. The secretary of state is hereby further authorized and required to furnish and transmit to all clerks of county boards of supervisors, in the same manner and at the same time in each year, that blank returns of elections are now transmitted, a sufficient number of copies of said list, duly certified by him, as will supply the board of registry for each town, ward or village with one copy thereof, and the inspectors of election in each election precinct in any county with three copies of said list.

SECTION 3. It shall be the duty of each and every clerk of the county board of supervisors in this state to whom copies of said list are so transmitted, to deliver or cause to be delivered to the board of registry in each town, ward and incorporated village in his county, on or before the day of their last meeting preceding any general election, one copy of said list, and to the inspectors of election at each election precinct in his county, at any general election, three copies of said list, which shall be posted up by said inspectors in conspicuous places at the polls of such election, for public inspection.

SECTION 4. A copy of said list, duly certified by the secretary of state, shall be *prima facie* evidence in all courts and places, of desertion from the military or naval service of the United States, by the person therein named as a deserter from such service.

SECTION 5. Any clerk of the county board of supervisors and any inspector of election who shall refuse or neglect to perform any of the duties which by this act he is required to perform, shall be deemed guilty of a misdemeanor, and shall be liable to a fine of fifty dollars and costs of prosecution for each and every offense.

SECTION 6. This act shall take effect and be in force from and after its passage.

Approved March 29, 1867.
